

9th October

$$9^3$$

There are 1625 sweets in a tub.
A group of friends share the sweets.
Each person gets 65 sweets.
How many friends are there?

Write $\frac{1}{8}$ as a decimal

For every three 50p coins, Cain has two
20p coins.
Cain has £40 in 20p coins.

How much money does Cain have
altogether?
