

**25th February**

$$\frac{7}{15} + \frac{4}{15}$$

$$6,000 - \square = 758$$

Draw all the lines of symmetry onto the arrow

Find the missing two numbers

78   103   128     

Plot the points

(3, 3)   (5, 3)   (0, 5)

Join the points to make a triangle
