

26th June

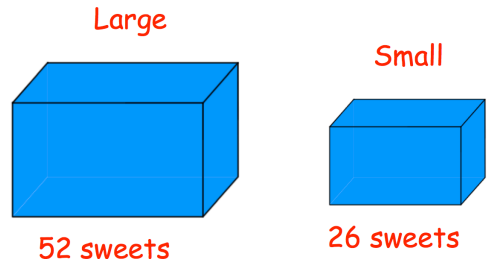

$30 \times 200$

$1 - 8$

How many faces does this 3-D shape have?

Mia buys 2 large packets of sweets and 3 small packets of sweets.

How many sheets of card did Mia buy altogether?

Write the three missing digits to make this addition correct

$$\begin{array}{r}
 3710\ \square \\
 + 81\square 7 \\
 \hline
 \square 5305
 \end{array}$$
