

## 4th May

$$\frac{7}{12} - \frac{5}{12}$$

$$6,060 - 301$$

Here is part of a number sequence.

The numbers in the sequence increase by 30 each time.

60 90 120 150 ...

Circle **all** of the number below that will appear in the sequence

195 210 220 250

300 333 390 400

Super Bowl LIII will take place in 2019.

Write LIII in **figures**

Write in the missing digits

$$\begin{array}{r}
 2 \square 2 \\
 + \square 2 \square \\
 \hline
 8 0 0
 \end{array}$$
