

## 17th October

$$\frac{9}{10} \div 2$$

45% of 260

Work out the value of y

$$3y = 24$$

y=8

The time taken for 4 friends to complete a crossword are

14 minutes
1,200 seconds Zumins
three quarters of an hour 45 mins
25 minutes

Arrange the times in order, starting with the quicked

14 mins, 1200 seconds, 25 mins, 34 hours.

Adam organised a charity concert at a theatre.

The hall holds 35 rows of 42 seats. There were 50 empty seats.

Each person paid £18.

How much money did Adam raise?

35 ×42 = 1470 1470 - 50 = 1420

1420 x 18 = & 25560
