

2nd November

Simplify $\frac{35}{50}$

$$\frac{7}{10}$$

$$\begin{array}{r} 1213 \\ 6 \overline{) 7278} \end{array}$$

1213

Circle all the cube numbers

36 64 100
52 27 125
81 300

A square measures 30cm by 30cm

A rectangle is 7cm longer and 2cm narrower than the square.

What is the difference in area between the two shapes?

$$\underline{136\text{cm}^2}$$

$$30 \times 30 = 900$$

$$37 \times 28 = 1036$$

Here is a number written in Roman numerals

DCCI

701

Write the number in figures
