

16th December

$$\frac{2}{7} \div 3$$

$$\frac{2}{7} \times \frac{1}{3} = \frac{2}{21}$$

$$\frac{2}{21}$$

$$1.2 \div 20$$

$$0.06$$

Use these signs to make the calculation work.

+ - × ÷

$$8 \boxed{+} 5 \boxed{+} 8 \boxed{\times} 3 = 37$$

40% of a number is 12.

What is the number?

30

$$12 \div 4 = 3$$

$$3 \times 10 = 30$$

Draw a cuboid with half the volume of the cuboid shown.
