

Name: _____

Primary 5-a-day

Gold

12th May

$$0.008 + 0.55 + 0.093$$

Grid for calculation

$$\begin{array}{r} 6 \\ \underline{9636} \\ 6 \end{array}$$

Grid for calculation

A teacher asks some girls and boys what they wanted to do on a school trip

What percentage of girls wanted to go to the zoo?

Grid for calculation

12 boys wanted to go bowling.

Estimate how many boys wanted to go to the cinema.

Four friends are in a race.

Alice is 5 metres ahead of Barry

Clara is 10 metres behind Dylan

Barry is 3 metres behind Dylan

Write the names of the runners in order, starting with the friend who is furthest ahead
