

Name: _____

Primary 5-a-day

Bronze

14th March

$$\boxed{} + 10 = 60 - 35$$

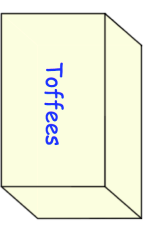

$$76 - 36$$

There are **87** cars in a car park.
19 more cars go into the car park.
Then **45** cars go out.
How many cars are in the car park **now**?

Find the missing number

Alexandra has a box of toffees.
She has 8 friends.
She gives them 5 toffees each.
There are 7 toffees left.
How many toffees were in the box at the start?
