

Name: \_\_\_\_\_

Primary 5-a-day

Platinum

1st March

$$\frac{6}{7} \div 2$$

$$\begin{array}{r} 49 \overline{) 1813} \end{array}$$

In this rectangle,  $\frac{4}{9}$  is shaded purple  
 $\frac{1}{5}$  is shaded green.

What fraction of the rectangle is not shaded?

$$w = 17$$

Work out  $6w + 7$

The volume of the cube and the cuboid are equal.  
Find the length of the cuboid.
