

18th March

$945 \div 35$

$\frac{7}{8} = \square \%$

--

--

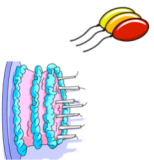

I am thinking of a number that is not zero.

I **multiply** my number by -2

Tick the statement that is true.

 The answer must be positive The answer must be negative The answer could be positive or negativeRebecca is $\frac{1}{3}$ of Barry's age.Barry is $\frac{1}{6}$ of Neville's age.

If Rebecca is 4 years old, how old is Neville?

Is the shape a **regular** pentagon?

Yes No

Find the size of angle x
