

28th July

$$12.5\% = \frac{\square}{\square}$$

$$98 \times 132 = 4 \times \square$$

Shown are two identical rectangles

Find the length of one rectangle

Find the size of angle x

Shown below are five cards which are arranged in order, smallest first  
The difference between the smallest and largest is 6.  
The middle card is 25% of 28.  
The mean of the cards is 8.  
Work out the 4 missing numbers
