

Name: _____

Primary 5-a-day

Silver

5th December

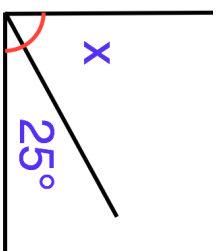

$$\frac{7}{10} + \frac{2}{10}$$

<input type="text"/>

$$711 - 125$$

<input type="text"/>

Find the size of angle x

1 kilometre = metres

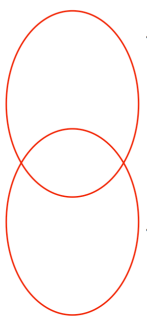

1 metre = centimetres

1 kilogram = grams

Write each number in its correct place on the diagram.

20 24 30 32

Multiple of 6 Multiple of 8
