$$\begin{array}{r} 3 \\ - 5 \\ 4 \end{array} - \frac{5}{8}$$

<div style="border: 1px solid black; width: 100%; height: 100%; background-color: #e0e0e0;"></div>
--

Write down all the factors of 24

Large pies cost £3.25 each
Small pies cost £1.80 each

Five children together buy two large pies
and one small pie.

They share the cost equally.

How much does each child pay?

Write the two missing digits to make this
long multiplication correct

$$\begin{array}{r} 5 \quad \square \\ \times \quad \square \quad 7 \\ \hline 3 \quad 7 \quad 1 \\ 1 \quad 0 \quad 6 \quad 0 \\ \hline 1 \quad 4 \quad 3 \quad 1 \end{array}$$
