

Name: _____

Primary 5-a-day

Platinum

26th January

$$2.4 \times 101$$

$$70\% \text{ of } 350$$

Grid for calculation of 2.4×101 . Answer box:

Grid for calculation of $70\% \text{ of } 350$. Answer box:

What number comes at the end of row 20?

Row 1	9	12	15
Row 2	16	19	22
Row 3	23	26	29
Row 4	30	33	36

Which row has a sum of 309?

Work out the missing number

$$\square \div \frac{7}{15} = \frac{2}{3}$$
