Primary 5-a-day

Gold

29th February

$600 \div 1000$

0.6

$-100 + 21$

-79

Write the number 300 in Roman numerals

CCC

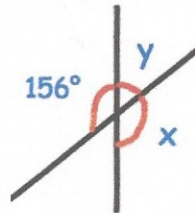

What size is angle x?

156°

What size is angle y?

$180 - 156 = 24^\circ$

Sophie says the angle below is 65°

Explain her mistake

She's read the outside scale, when she should have read 115°.
