Ruby

30th August

$1 + 5 =$

6

$5 + 6 =$

11

$9 - 3 =$

6

$14 - 13 =$

1

Circle the coin that has the **highest** value.

Write four **different** numbers in the boxes to make these correct.

$\boxed{6} - \boxed{2} = 4$

$\boxed{9} - \boxed{5} = 4$

Arlo is 13 years old.

Harry is 6 years **younger** than Arlo.

How old is Harry?

$13 - 6 = 7$

7
