

Name: _____

Primary 5-a-day

Ruby

22nd February

$10 - 2 =$

$4 + 9 =$

$7 + 4 =$

$13 + 5 =$

Write in the missing numbers in this pattern.

92

91

87

Put a tick in a square that is **2 squares right** of the shaded square.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------	--------------------------	--------------------------	--------------------------

Jenny has 6 apples.

She eats **half** of the apples.

How many does she have left?
