Primary 5-a-day

Ruby

17th January

$1 + 1 =$

Half of 2 is

$2 + 11 =$

$14 - 4 =$

Put these numbers in order, from smallest to biggest.

5

2

8

4

smallest

biggest

Write the missing number in the box.

$$7 + 8 - \square = 12$$

James needs 16 eggs.

He only has 9 eggs.

How many more eggs does James need?
