$2 + 18 =$

20

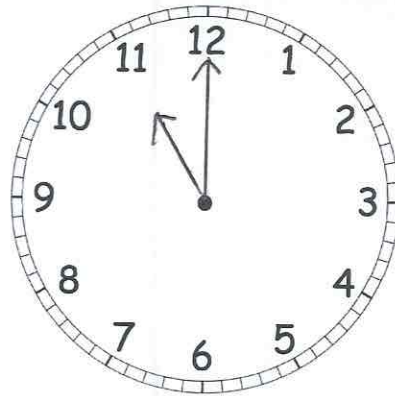

$14 + 5 =$

19

Put a tick in a square that is **2 squares left** of the shaded square.

Show the time **11 o'clock** on the clock.

There are 20 sweets in a jar.

3 sweets are red.

6 sweets are blue.

The rest of the sweets are green.

How many green sweets are in the jar?

$20 - 3 - 6 = 11$
