Primary 5-a-day

Ruby

3rd September

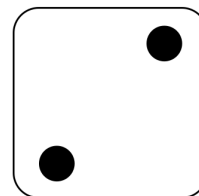

$$1 + \square = 10$$

$$7 - 5 = \square$$

$$2 + 3 + 4 = \square$$

Double 2  $\square$

What number is **5 more** than the number on the dice?

Write a number in each box to make a correct calculation.

$$\square + 10 + \square = 19$$

Circle all the **odd** numbers.

8                      4                      5  
3                      6                      2
