

8th March

$$51 - 20 = \square$$

$$88 + 5 = \square$$

Lily has 13 sweets.

Anna has 32 sweets.

How many sweets do they have altogether?

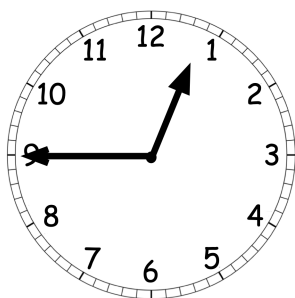

Here is a calculation.

$$\boxed{12} + \boxed{4} = \boxed{16}$$

Use the same numbers to make these correct.

$$\square - \square = \boxed{12}$$

$$\square - \boxed{12} = \square$$

What time does the clock show?
Tick the correct box.
 quarter to 1

 quarter past 12

 quarter past 1

 quarter to 9
