

Name: \_\_\_\_\_

Primary 5-a-day

Emerald

28th January

$4 + \square + 3 = 18$

$60 - 11 = \square$

Altogether the carrot and the strawberry weigh 80 grams.

How much does the strawberry weigh?

 g

60g

?

Put a digit in box to make the calculation correct

$\square \square 2 + 1 \square 8 = 3 \square 0$

Draw two lines to divide the rectangle into quarters.
