

Name: _____

Primary 5-a-day

Emerald

12th May

$$100 - \boxed{60} = 40$$

$$\frac{1}{2} \text{ of } 100 = \boxed{50}$$

There are 12 boys and 14 girls in a hall.

How many children are in the hall altogether?

$$\boxed{26}$$

Emily's number has
2 tens and **5 ones**

Natalie's number has
1 ten and **4 ones**

Add together Emily's number and Natalie's number.

$$25 + 14$$

$$\boxed{39}$$

Heather rolls two dice.

She adds the two numbers together.

What is the lowest score she can get?

$$\boxed{2}$$
