30940

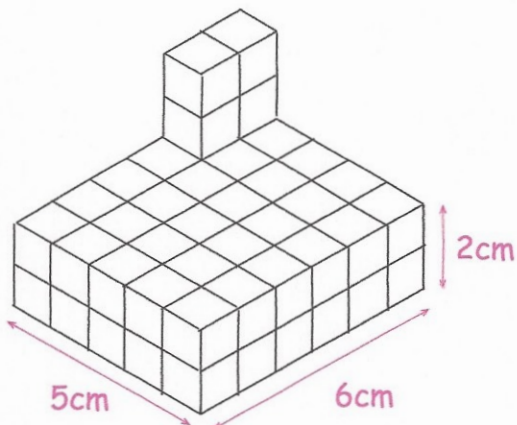

Work out the value of w

$$4w - 3 = w + 24$$

$$3w = 27$$

$$\underline{\underline{w = 9}}$$

This shape is made from centimetre cubes.

How many more centimetre cubes are needed to make it into a solid cuboid 5cm wide, 6cm long and 4cm tall?

$$5 \times 6 \times 4 = 120$$

$$\begin{array}{r} 5 \times 6 \times 2 = 60 \\ + 4 \\ \hline 64 \end{array}$$

$$120 - 64 = \underline{\underline{56}}$$
