

Name: _____

Primary 5-a-day

Diamond

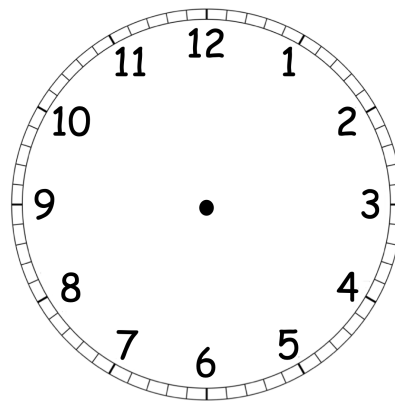

29th August

$$4 \div 2 =$$

$$43 + 26 =$$

Show the time **five past three** on the clock.

Count up in sixes.

6

12

Seth has 20 conkers.

Dylan has a **quarter** of the number of conkers that Seth has.

How many more counters does Seth have than Dylan?
