

Name: _____

Primary 5-a-day

Diamond

20th February

$10 \div 10 =$

$\frac{3}{4} \text{ of } 20 =$

Use the three numbers below to make two calculations.

7

35

5

 $\times$ $=$ $\div$ $=$

Here is a pattern of shapes.

Circle the next shape.

Stanley has 50 carrots.

He uses 22 carrots.

Stanley gives **half** of the carrots that are left to his mum.

How many carrots did Stanley give to his mum?
