

Name: _____

Primary 5-a-day

Diamond

18th January

$15 \div 5 =$

$- 18 = 39$

Jonah has five cookies.

George has nine times that number of cookies.

How many cookies does George have?

Write in the missing numbers in this pattern.

15

35

55

There are 10 stickers in a packet.

Finn opens 10 packets of stickers.

16 of the stickers are shiny and the rest are not shiny.

How many stickers are **not shiny**?
